

Parasite Cleanse Frequency Report

Over 80 Toxic Organisms Neutralized by NeuralSync™

How Frequency Therapy Succeeds Where Supplements Fail

Introduction

Hidden pathogens and parasitic organisms are among the most underestimated causes of fatigue, inflammation, and immune suppression. Conventional cleanses — whether herbal or supplement-based — address only a narrow spectrum of these invaders. They rely on digestion, reach limited biological zones, and rarely penetrate deep systemic infections.

The NeuralSync™ Parasite Cleanse represents a different tier of precision. Built upon the principle of **Mortal Oscillatory Rate (MOR) therapy** and augmented with **scalar energetic enhancement**, this six-hour frequency protocol operates passively while you rest. It's designed to neutralize pathogens at their exact resonance point — accomplishing what chemical or herbal cleanses simply cannot.

Organism Categories Targeted

1. Protozoa and Blood Parasites

Persistent protozoa often evade both detection and elimination. NeuralSync™ frequencies penetrate at the energetic core, disrupting their internal resonance and halting replication without physical invasion.

Examples: *Giardia lamblia*, *Entamoeba histolytica*, *Babesia microti*, *Plasmodium species*

2. Helminths and Worms

Worms can remain viable for years within the human body, often resistant to chemical or herbal measures. NeuralSync™ interrupts their reproductive and metabolic cycles through resonant frequency destabilization — without toxic compounds or gastrointestinal strain.

Examples: *Ascaris lumbricoides*, *Strongyloides stercoralis*, *Taenia solium*, *Trichuris trichiura*

3. Pathogenic Fungi and Yeast

Fungal overgrowth depletes immune reserves and thrives despite most supplement regimens. Scalar-enhanced NeuralSync™ frequencies restore biofield coherence while disintegrating fungal resonance patterns, reducing both load and recurrence potential.

Examples: *Candida albicans*, *Aspergillus fumigatus*, *Cryptococcus neoformans*, *Histoplasma capsulatum*

4. Bacteria-Like and Opportunistic Organisms

Chronic bacterial and mycoplasma infections frequently accompany parasitic colonies and are seldom addressed by conventional cleanses. NeuralSync™ synchronizes multiple frequency layers to dismantle both primary and opportunistic organisms simultaneously.

Examples: *Mycoplasma pneumoniae*, *Borrelia burgdorferi*, *Chlamydia pneumoniae*, *Helicobacter pylori*

Comprehensive Organism Coverage

Category	Representative Organisms
Bacteria & Mycoplasma	Gram Negative Bacteria, Gram Positive Bacteria, Mycoplasma
Mold & Fungi	Mold and Fungus (general spectrum)
Protozoa & Blood Parasites	Giardia, Leishmania, Trypanosoma, Plasmodium
Helminths & Worms	Ascaris, Strongyloides, Trichinella, Heartworms, Haemonchus, Macracanthorhynchus
Flukes & Trematodes	Clonorchis, Fasciola, Schistosoma, Echinoparyphium, Cryptocotyle, Eurytrema
Tapeworms & Cestodes	Tapeworms (general), Taenia, Echinococcus, Roundworms (general and comprehensive)
Skin & External Parasites	Scabies, Follicular Mange, Gyrodactylus
Opportunistic / Other	Onchocerca, Helminthsporium (worm eggs)
Viral Complexes	Viral complex categories (broad-spectrum)

Partial list shown — NeuralSync™ Parasite Cleanse targets over 80 organisms across all major parasitic and microbial classes.

Why Frequency Therapy Works

Each organism maintains a unique **resonant frequency** — the vibrational signature that governs its structural stability. When exposed to that identical frequency through precision entrainment, the organism destabilizes and disintegrates. This principle, known as **Mortal Oscillatory Rate**

(MOR) targeting, enables complete neutralization without chemical interference or tissue toxicity.

NeuralSync™ Parasite Cleanse Advantages

- **Six-hour continuous exposure:** full microbial life-cycle coverage during sleep.
- **Precision multi-frequency targeting:** simultaneous disruption of parasites and co-infections.
- **Scalar energetic augmentation:** enhances immune resonance and stabilizes post-cleansing biofield integrity.

This is not a supplement or herbal protocol — it is a **non-invasive, frequency-engineered therapeutic system** built for comprehensive organism neutralization.

Conclusion

The NeuralSync™ Parasite Cleanse is the only passive, frequency-based protocol engineered to systematically neutralize over 80 organisms with scientific precision. It combines MOR frequency entrainment with scalar energetic augmentation to deliver safe, total-spectrum pathogen reduction while restoring systemic balance.

Experience the difference of engineered frequency precision.
